1. MPC response overview

As of **15 August 2023**, a total of **758,473** persons or **150,882** families have been reached by MPC interventions.

A total of USD **24.8 million** has been disbursed by **31** implementing agencies in **247** communities across **35** sub-districts.

Only beneficiaries who have received at least USD 100/family/month have been included; excludes sector-based activities such as non-MPC cash-for-food.

¹As percentage of all MPC beneficiaries reached in NW Syria

In February 2023, 149,356 beneficiary frequencies were reached, and in March 2023 the number increased to 209,464. In April 2023 150,584 were reached. As of May 2023, 113,343 beneficiaries have been reached, followed by 95,290 in June, with 93,822 in July 2023 and 10,339 in August 2023.

This document distinguishes between beneficiaries, or unique individuals reached, and beneficiary frequencies, or the number of times people have been reached, inclusive of double counting.

1.1 Progress by date

MPC progress by date

The earliest earthquake-related distribution was 09 Feb 2023

Excludes 19,121 beneficiaries for which activity end date was after 15 August 2023

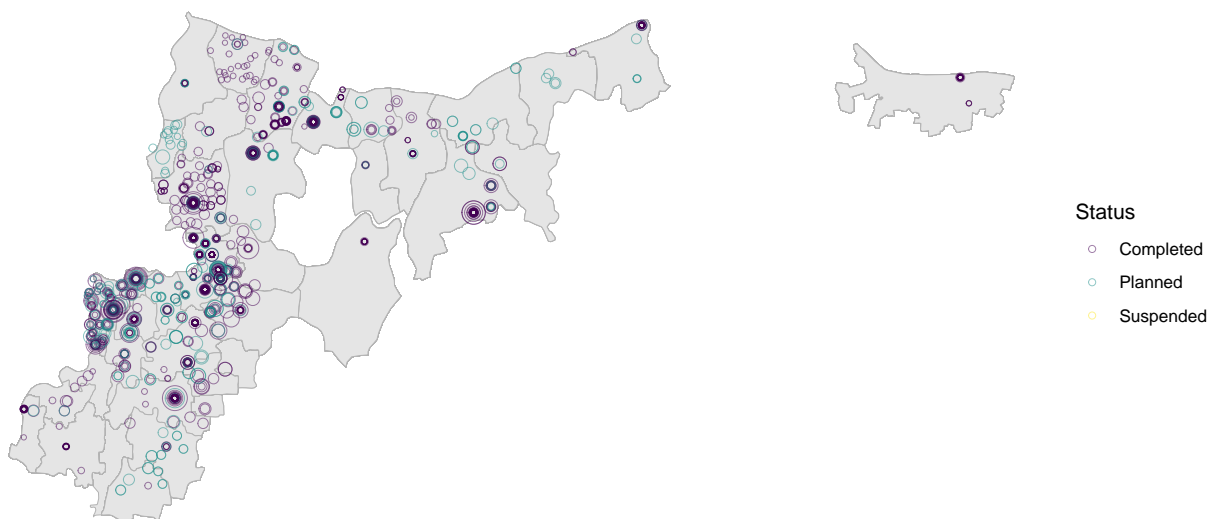

The small number of beneficiaries reached earlier than February all pertained to the HRP, the only such beneficiaries reported so far. The CWG would like to encourage partners to report on their January achievements.

2. Map of activities

3. Geographic breakdown of beneficiaries

Coverage continues to be highest in Afrin and Harim districts, where the highest numbers of damaged houses and wounded people are located (though these areas do not necessarily have the highest proportions of damage).

3.1 By sub-district

The plots below show the breakdown of beneficiaries by sub-district. Caution must be taken to ensure that allocations are fair across the affected areas: there are numerous sub-districts where a very large proportion of the total population has already been reached by multipurpose cash, in particular, Jandairis, Harim, Salqin and Sharan.

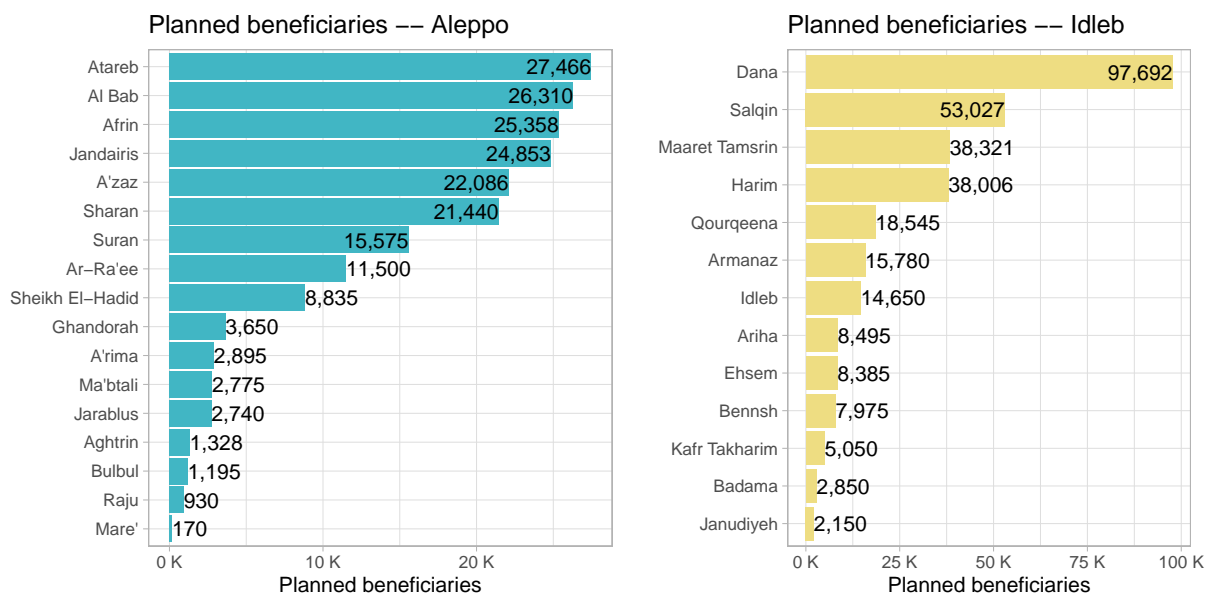

Response activities must be proportional with the magnitude and severity of earthquake damage. Over allocation deprives affected persons of the aid they are due.

The average percentage of the population reached, of all sub-districts, is 12.18%.

3.2 Planned activities

Whilst it is heartening to see new sub-districts, the majority of planned allocations have been accorded to areas that have already received relatively high levels of support.

4. Cash response actors and cash disbursed

USD **24.8 million** has been distributed across **247** communities and **35** sub-districts in NW Syria.

5.2 Reporting quality

This section documents issues encountered in the cleaning of 4W and FSL data and their impacts on the quality of reporting the CWG can provide. The recommendations by the CWG are included to enhance reporting quality:

1. The CWG has adopted a new 4Ws template for monthly reporting, aiming to improve the documentation of the earthquake response efforts. **The reporting deadline is set on the 15th of each month.** In February 9 partners reported their achievements, In March 10 partners have reported their achievements, with 17 partners having reported in April, in May 18 partners have reported. 10 partners have reported in June, with 10 partners have reported in July, and 8 reported in August. If no MPC activities were implemented, please inform the CWG as well.
2. For this reporting period, activities pertaining to 19,121 beneficiaries were missing their dates or had dates in unreadable formats. **Please ensure that the start date and end date are entered in the format (mm/dd/yyyy) and select the month of reporting from the options in the drop down menu.**
3. For sex-and-age dis-aggregations, please do not back fill these columns using calculations based on the census or the MSNA. If no dis-aggregated data is available to your organisation, please leave these columns blank.
4. The Cash Working Group is currently only collecting planned and implemented **Multipurpose Cash** achievements. Whilst the CWG welcomes additional inputs on other CVA activities, we also want to ensure that the reporting load is as low as possible for partners i.e. if an agency has implemented Cash-for-Work, this should be reported to the ERL Cluster. The CWG will work with all Clusters to develop a consolidated picture of response-wide CVA interventions.
5. Please indicate in the **previously_assisted** column whether or not beneficiaries have been reached before. However, if the beneficiaries are being reported for the first time to the Cash Working Group, even if you have reached them before, please indicate **No** in this column. This column is used calculate to the number of unique individuals reached.
